## APPDYNAMICS

**AppDynamics** offers one of the most powerful application monitoring solutions in a distributed infrastructure. The **AppDynamics** software platform allows to collect performance data for various applications, servers, databases and other critical IT systems from all infrastructure nodes. It has the tools to proactively monitor, manage and optimize the most complex IT infrastructures. In case of applications bugs, the platform automatically warns about the necessity of urgent intervention of technical specialists to fix them. Real-time monitoring increases control over the capacity of applications, infrastructure components, and how applications are perceived by end users.

### MAIN ADVANTAGES OF THE PRODUCT:

- ▶ Complete overview of On-premise architecture along with Cloud environments
- ▶ Performance optimization in an increasingly dynamic and fragmented technology landscape
- ▶ Prioritization of the most important issues before they affect business processes
- ▶ Maintaining business continuity during technological change with a platform that reduces noise and maintains fast and efficient operation
- ▶ Data collection and analysis across the entire stack
- ▶ Detailed visualization that helps to take action and improve user experience and business results
- ▶ Configuration just in a few minutes with Smart Code Instrumentation
- ▶ AppDynamics is constantly updated with an evolving ecosystem of industry solutions ADO.NET, Docker, Apache, Node.js, Python, AngularJS, and more

## BARRACUDA NETWORKS

**Barracuda Networks** provides powerful, easy-to-manage, affordable solutions to protect users, applications and data. The list of the company's clients includes more than 150,000 organizations worldwide.

The **Barracuda Networks** portfolio includes security, networking, and storage products based on network devices and cloud services. These solutions protect against spam email, web surfing, hackers and threats from instant messaging services.

The company also offers tools to counter threats like spam, spyware, Trojans and other malware. **Barracuda Networks** solutions provide web traffic filtering, load balancing, message archiving, backup services and data protection

### MAIN ACTIVITIES:

#### EMAIL PROTECTION

- ▶ Email Protection
- ▶ Email Threat Scanner
- ▶ Email Security Gateway
- ▶ Message Archiver
- ▶ PST Enterprise

#### APPLICATION & CLOUD SECURITY

- ▶ Cloud Application Protection
- ▶ WAF-as-a-Service
- ▶ Web Application Firewall
- ▶ Cloud Security Guardian
- ▶ Load Balancer ADC
- ▶ Vulnerability Manager
- ▶ Data Inspector

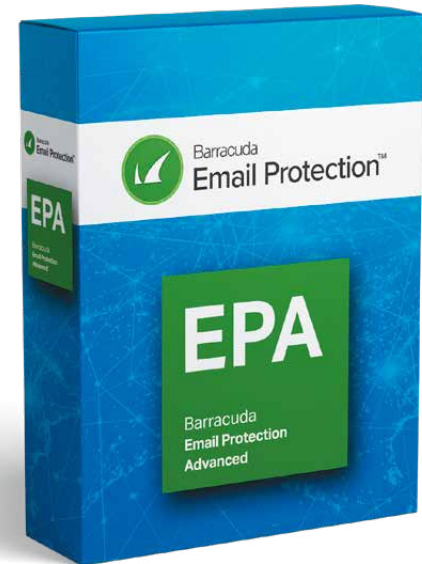

#### NETWORK SECURITY

- ▶ CloudGen WAN
- ▶ CloudGen Firewall
- ▶ CloudGen Access
- ▶ Firewall Insights
- ▶ Web Security Gateway

- ▶ Content Shield
- ▶ Firewall Control Center
- ▶ Secure Connector

#### DATA PROTECTION

- ▶ Backup
- ▶ Data Inspector

## BITTITAN

**BitTitan** is a provider of cloud migration and data management business process automation solutions for enterprise and mail systems. The company offers MigrationWiz, an industry-leading SaaS solution that enables you to migrate mailboxes, documents, shared folders and a number of other cloud services from a wide range of sources and destinations.

### MAIN ACTIVITIES:

MIGRATIONWIZ SYSTEM FOR FULLY AUTOMATIC MIGRATION OF HUGE DATA  
TO MICROSOFT OFFICE 365/MICROSOFT EXCHANGE

## BLUETTI

**BLUETTI** is a manufacturer of portable power stations, energy storage systems and mobile solar systems with high quality and performance. **BLUETTI** products solve the problems of backup power and power availability anywhere without access to the energy grid. The company's devices can provide autonomous operation and charge laptops, tablets, smartphones, network equipment, electric vehicles, and various household appliances.

### MAIN ACTIVITIES:

- ▶ Portable power stations
- ▶ Expansion battery modules
- ▶ Solar panels
- ▶ Accessories

# Centerm

## CENTERM

Since its founding in 2002, **Centerm** has been focusing on digital transformation solutions for banks and companies with a disparate branch structure. According to IDC analytics company, the **Centerm** brand is one of the top three global manufacturers of remote work equipment, thin and zero clients, along with HP and Dell.

The **Centerm** portfolio includes products for a wide range of virtualization environments to suit companies of all sizes. **Centerm** thin clients provide high performance and efficiency, providing customers with a number of advantages: security, ease of management and reliability. In addition to terminals, **Centerm** also produces a number of other corporate products: mini PCs, monoblocks, software for managing your devices, mobile and payment terminals, as well as self-service terminals for companies in the financial sector.

### MAIN ACTIVITIES:

- ▶ Zero clients
- ▶ Thin clients
- ▶ Mini PC
- ▶ Monoblocks
- ▶ Counters
- ▶ Mobile terminals
- ▶ Self-service terminals
- ▶ Payment terminals

## CONTEG

**CONTEG** is a leading European manufacturer of comprehensive infrastructure solutions for data centers, including server rack systems, precision air conditioning systems, intelligent power distribution units, monitoring systems and cable management systems.

### MAIN ACTIVITIES:

- ▶ Free-standing racks
  - PREMIUM SERVER RF1
  - PREMIUM HOUSING RB1
  - iSEVEN SERVER
  - iSEVEN FLEX SERVER (unassembled version)
  - iSEVEN RI7 series (universal racks)
  - iSEVEN Flex RM7 (unassembled version)
  - OPTIMAL CABLE MANAGEMENT (For high-density copper or optical connections)
- ▶ Open frames
- ▶ Wall-mount & SOHO racks
- ▶ Cooling & ventilation
  - In-row Units
  - Above-rack Units
  - In-rack Units
  - Room Cooling Units
  - Outdoor Units
  - Chillers
  - Ventilation Units
  - Airflow Management
- ▶ Monitoring & security (several management and control systems)
- ▶ Cable management
  - High Density Wire Management
  - Optical Pathway System
  - Management of Metallic Cables
  - Standart Cable Management
- ▶ Rack power distribution units (PDUs)
- ▶ Complete solutions for outdoor
  - Outdoor Cabinets outTEG, WME-O, FSM-O
  - Cooling & heating
- ▶ Complete solutions for industry
  - Wall mount WME enclosures
  - Free-standing enclosures FSM-X, FSE, FSM, FSM-O
  - Cooling & heating

## DELTA

**Delta** is a global provider of power and thermal management solutions. Its mission statement, "To provide innovative, clean and energy-efficient solutions for a better tomorrow," focuses on addressing key environmental issues such as global climate change. As an energy-saving solutions provider with core competencies in power electronics and automation, **Delta's** business categories include Power Electronics, Mobility, Automation, and Infrastructure.

**Delta** offers some of the most energy efficient power products in the industry, including switching power supplies with efficiency over 90%, telecom power with up to 98%, and PV inverters with up to 99,2% efficiency. We have also developed the world's first server power supply certified as 80 Plus Titanium.

Headquartered in Taiwan, **Delta** regularly invest over 8% of our annual sales revenues in R&D and have worldwide R&D facilities in

China, Europe, Japan, Singapore, Thailand, and the U.S.

**Delta** is a frequent recipient of international awards and related recognition for innovation, design, and continuous dedication to ESG. Since 2011, **Delta** has been listed on the DJSI World Index of Dow Jones Sustainability Indices for 13 consecutive years. **Delta** has also won CDP with double A List for 3 times for its substantial contribution to climate change and water security issues and named Supplier Engagement Leader for its continuous development of a sustainable value chain for 7 consecutive years.

In response to the challenge of climate change, **Delta** will remain committed to the research and development of innovative, energy-saving products, solutions and services that contributing substantially to the sustainable development of mankind.

### MAIN ACTIVITIES:

- ▶ Uninterruptible Power Supplies
- ▶ Racks
- ▶ Power Distribution Units
- ▶ Software

## DROPSUITE

**Dropsuite** company specializes in backing up cloud data such as websites, emails. **Dropsuite** products allow you to offer a simple solution for organizing data backup completely based on cloud services. In particular, the Email backup Office 365 product has a convenient integration with the Office 365 service. It will allow you to automate the backup of email and Sharepoint data (including OneDrive) to the **Dropsuite** cloud and, if necessary, not only restore the entire archive, but also find a separate element – a letter or a file from an old archive.

### MAIN ACTIVITIES:

#### OFFICE 365 BACKUP

- ▶ Office 365 backup
- ▶ Exchange backup
- ▶ Sharepoint backup
- ▶ Onedrive backup
- ▶ Team sites backup

#### G SUITE BACKUP

- ▶ G suite gmail backup

#### WEBSITE BACKUP

#### E-MAIL ARCHIVING

#### IMAP POP BACKUP

## ENDPOINT PROTECTOR | by CoSoSys NOW PART OF **netwrix**

## ENDPOINT PROTECTOR BY COSOSYS

**CoSoSys S.R.L.** is a developer of data protection solutions. **CoSoSys'** key product is **Endpoint Protector**, a comprehensive multiplatform all-in-one DLP solution designed for large, medium, and small enterprises. The system eliminates unintentional data leaks, protects against information theft and malware, and offers control over portable devices and storage devices. **Endpoint Protector** has content filtering capabilities for data at rest and in motion, which are based on dictionaries, regular expressions, and machine learning, as well as profiles for data protection regulations such as GDPR, HIPAA, etc.

### MAIN ACTIVITIES:

- ▶ Protecting information, blocking or allowing file transfers
- ▶ Scanning of sensitive data
- ▶ Data encryption during transmission by mail or copying to media
- ▶ Management of USB devices and peripheral ports
- ▶ Control and management of mobile devices
- ▶ Simple cloud-based central management of the entire network

# EnGenius®

## ENGENIUS NETWORKS

**EnGenius Networks** is a manufacturer of state-of-the-art enterprise network equipment specializing in wireless networks. The company has its own manufacturing facilities in Taiwan, where it also manufactures products for Cisco, Extreme, Ruckus, Fortinet and several others. Attractive pricing policy allows the implementation of high-quality, modern solutions with an optimal price/performance ratio.

### MAIN ACTIVITIES:

- ▶ Access points of corporate level of the Wi-Fi 6 and 7 standard
- ▶ Switches with PoE++ support and multi-gigabit ports. With continuous power supply. The built-in point controller for access points does not require additional licensing
- ▶ Free centralized access point management system EzMaster
- ▶ Free cloud management with analytics and visualization extensions

## EXCEL NETWORKING

**Excel Networking** is the number one brand in the SCS market in the UK, offering premium end-to-end infrastructure solutions at an affordable price. The company's staff includes a team of industry experts who ensure that the latest innovations and manufacturing capabilities are implemented to exceed the standards of quality and performance, technical consistency and excellence. All of this, plus a 25-year warranty, makes **Excel Networking** solutions a great option for government, education, finance, and other institutions.

### MAIN ACTIVITIES:

#### COPPER SYSTEMS

- ▶ Category 8
- ▶ Category 7A
- ▶ Category 6A
- ▶ Category 6
- ▶ Category 5e

#### FIBER-OPTIC CABLE SYSTEMS IN BUILDINGS

- ▶ Universal cable and cords OS2, OM2, OM3, OM4, OM5
- ▶ Connectors ST, SC, LC, FC, SC/APC Connectivity
- ▶ Tool for installation and inspection of optical connections

#### ENBEAM MTP SOLUTIONS FOR DATA CENTERS

- ▶ Preterminated high density constructions
- ▶ MTP cassettes and cable trunks OM3, OM4, OM5, OS2
- ▶ Cleaning and inspection tool for MTP/LC/SC connectors

#### FIBER OPTIC SYSTEMS FOR FTTX SEGMENT

- ▶ Micro-cables for blowing OS2 up to 144 fibers
- ▶ Outdoor cables G.657.A2, G.657.B3
- ▶ Ducts/pipes for fiber blowing system 5/7/12/14/16 mm.

- ▶ Splitters, distribution boxes, fiber optic closures

#### CABINETS AND OPEN RACKS "19"

- ▶ Communication (CR)
- ▶ Server (SR)
- ▶ Colocation (CL)
- ▶ Open racks and organizers (OR)

#### POWER DISTRIBUTION UNITS

- ▶ Standard
- ▶ Intelligent
- ▶ Modular
- ▶ Desktop

## GENIE NETWORKS

**Genie Networks** is a leader in traffic analysis and security solutions. With an innovative approach to behavioral traffic analysis (NBA), the company has created a powerful cost-effective solution for collecting and analyzing information, solving problems based on data, and protecting networks from attacks.

Among the company's products, the DPI traffic analyzer, event collection and processing systems, and solutions for traffic management and vulnerability analysis are noteworthy. **Genie Networks** also has experience in integrating its solutions with various network devices and software to ensure maximum efficiency and complexity of the solution.

**Genie Networks** has a customer base in over 40 countries, including major telecommunications companies, banks, government agencies, and large enterprises.

### MAIN ACTIVITIES:

- ▶ GenieATM – In-Depth Traffic Analysis and Instant DDoS Protection
- ▶ GenieATM FLB – Run Your Network Analytics and Security Solutions More Efficiently with Flow Load Balancer
- ▶ GenieATM MSP Server – The One-Stop Managed Service Platform to Enhance Revenue for Service Providers
- ▶ GenieATM Traffic Optimizer – Network Optimization Driven by Smart Traffic Visibility
- ▶ GenieATM Visual Portal – Intuitive, At-a-glance Data Visualizations Tailored to Your Network Demands
- ▶ GenieAnalytics – Smart Network Traffic Exploration by Big Data-Powered Analytics
- ▶ GenieAnalytics Deep Trace – End-to-End Traffic Intelligence from OTT Service, Delivery Network, to Subscriber Identity

## HIRSCH

**Hirsch, Inc.** is a developer of security and identification solutions. The Identiv portfolio includes solutions for physical and logical access control, video analytics and data analytics, contact and contactless smart card readers and reader modules, and RFID-enabled applications. The company's products allow you to protect the entire range of company assets: from the network perimeter to desktop access and from physical objects to IoT devices.

**Hirsch** solutions are used in a wide range of industries: government, corporate, consumer, education, healthcare, banking, retail and transportation. The company's products are manufactured in a manner consistent with the efficient use of resources and materials, including the protection and preservation of the natural environment.

### MAIN ACTIVITIES:

#### PHYSICAL ACCESS AND VIDEO CONTROL

- ▶ Access Control as a Service (ACaaS)
- ▶ Hardware
  - Hirsch hardware
  - physical access readers
- ▶ Software
  - Hirsch Velocity Software
  - Identiv Connected Physical Access Manager (ICPAM)
- ▶ Software-Driven Architecture
  - Freedom Access Control
  - Liberty Access Control
- ▶ Integrated Systems
- ▶ Telephone entry systems
  - Enterphone Cube

- Enterphone iQ
- Enterphone 19
- Enterphone iQ
- Enterphone™ Kiosk
- ▶ Video and data analytics

#### LOGICAL ACCESS CONTROL

- ▶ Smart Card Readers
  - contact

- contactless
- mobile
- ▶ uTrust tokens
- ▶ Applications
- ▶ OEM modules

#### RFID AND NFC SOLUTIONS

## INFOTREND

Taiwanese company **Infortrend** has been present in the global data storage market for over 20 years and has established itself as a reliable supplier of solutions with an optimal balance of price and performance. Analytical company Gartner has recognized Infortrend as a niche player, noting the manufacturer's commitment to solving complex customer problems with maximum efficiency.

**Infortrend** offers products that clearly distinguish it in the storage systems market. Infortrend storage systems are compatible with Nakivo, Commvault and Veeam products – leaders in the field of data backup. They are certified to work with key virtualization platforms Microsoft Hyper-V, VMware, Oracle, and support integration with cloud services of Amazon, Microsoft Azure, OpenStack Swift and Google Cloud. Infortrend solutions are focused on quality, reliability, flexibility in configuration and reasonable cost.

### MAIN ACTIVITIES:

- ▶ Scale-out NAS systems
- ▶ Unified All Flash storage systems
- ▶ Hybrid cloud storage systems
- ▶ Unified storage systems (SAN/NAS/cloud)
- ▶ SAN storage systems
- ▶ Server storage systems
- ▶ Storage systems for Artificial Intelligence Applications
- ▶ Expansion enclosures in various form factors
- ▶ Software

## IDEMIA

**IDEMIA** specializes in biometrics, identity verification and digital security. When developing solutions, the company relies on natural, reliable, and persistent features for identity verification: the body's own biometric data, including face, iris, and fingerprints. **IDEMIA** uses proven artificial intelligence (AI) and deep learning algorithms in its products to improve the performance of biometric identification and authentication.

MAIN ACTIVITIES:

BIOMETRIC READERS

# INFINIDAT

## INFINIDAT

**Infinidat** is a US-Israeli company that produces storage solutions for critical corporate data with the highest performance requirements and seven nines reliability. Gartner analyst firm positions **Infinidat** as an industry leader in the PrimaryStorage segment, citing that **Infinidat** consistently gets a high customer satisfaction rating due to stable firmware, easy management, overall performance, and the "all-inclusive" principle.

### MAIN ACTIVITIES:

- ▶ InfiniBox enterprise-class storage system
- ▶ InfiniGuard solution for data backup and recovery
- ▶ InfiniSync solution for data loss prevention
- ▶ Cloud solution Neutrix Cloud

## JIANGSU UNITED POWER FRIEND TECHNOLOGY

**Jiangsu United Power Friend Technology** specializes in the design and manufacture of generator sets. The company's solution portfolio includes open and silent type diesel, gasoline, gas generator sets, container generators, automobile generators, ship generators, etc. **Jiangsu United Power Friend Technology** products are highly reliable, have long service life and are used in various industries.

### MAIN ACTIVITIES:

- ▶ Diesel generators
- ▶ Silent generators
- ▶ Portable generators
- ▶ Marine diesel generators
- ▶ High power diesel generators
- ▶ Iveco diesel generators
- ▶ Cummins diesel generators
- ▶ Perkins diesel generators
- ▶ Yanmar diesel generators
- ▶ Lovol generators
- ▶ Deutz generators
- ▶ Mobile lighting towers
- ▶ Brushless generators
- ▶ High performance diesel engines
- ▶ Gas generators

# MONBAT®

## G R O U P

### MONBAT

**Monbat** is a manufacturer of lead-acid batteries and energy-consuming lithium-ion cells for a wide range of applications. The company's portfolio includes a wide range of batteries – for backup power systems, solar panels, vehicles, warehouse equipment, and others. Modern equipment and the use of advanced technologies ensure the high quality of **Monbat** products.

Lead-acid batteries are designed and manufactured using state-of-the-art technologies and comply with a number of technological standards, including IEC 60 896-21/22 and IEC 61 427 – 1/2, IEC

62485-2, IEC 61056-1 and BS 6290-4. Enclosure elements are made of high-quality non-flammable material. The product range includes 2, 4, 6, 8 and 12-volt batteries with capacities from 50 to 600 Ah for various applications – from telecommunications and backup power supplies to high-cycle batteries for solar installations. The **Monbat** starter battery range includes solutions for cars and commercial vehicles. The batteries cover the entire spectrum of passenger cars, trucks and agricultural vehicles operating in both normal and extreme environmental conditions.

#### MAIN ACTIVITIES:

- ▶ Starter batteries
- ▶ Industrial batteries
- ▶ Deep cycle batteries
- ▶ Energy systems

# NAKIVO®

## NAKIVO

**NAKIVO** is a developer of solutions for data backup in a virtual environment. The company's main product is **NAKIVO** Backup & Replication for data protection in VMWare, Hyper-V and AWS virtual environments. The solution is equipped with various features, such as installation on network drives, backup to tape or directly to the cloud, granular recovery, instant VM recovery, encryption, disaster recovery orchestration, failover and more.

### MAIN ACTIVITIES:

- NAKIVO Backup & Replication Data protection, backup and recovery

## NEXCONEC

**Nexconec** is a global leader in high-performance structured cabling systems. **Nexconec** develops high-density, low-loss, pre-terminated fiber optic cabling solutions to support data center infrastructure. The company's products are custom-built and tailored to specific customer projects and operating conditions. With its ISO-9001-certified manufacturing facilities, **Nexconec** produces high-quality products at minimal cost and maximum benefit to its customers.

### MAIN ACTIVITIES:

#### FIBER OPTIC SYSTEMS

- ▶ Patch Cords
- ▶ Multi-Fiber Assemblies
- ▶ MTP/MPO Assemblies
- ▶ Cables
- ▶ Rack Mount Enclosures
- ▶ MTP/MPO Modules and Panels
- ▶ Splitters and WDM
- ▶ Wall Mount Enclosures
- ▶ FTTH Boxes

- ▶ Outdoor Enclosures
- ▶ Fiber Accessories
- ▶ Racks and Cabinets
- ▶ Fiber Testing and Cleaning
- ▶ Outdoor ODVA

#### COPPER SYSTEMS

- ▶ Cables
- ▶ Patch Cords
- ▶ Power Supplies
- ▶ Patch Panels
- ▶ Connectors

#### ACTIVE COMPONENTS

- ▶ Media Converters
- ▶ SFP Transceivers
- ▶ SFP+ Transceivers
- ▶ SFP28 Transceivers
- ▶ XFP Transceivers
- ▶ 3G Video SFP
- ▶ QSFP+ Transceivers
- ▶ QSFP28 Transceivers
- ▶ Active Optical Cables (AOC)
- ▶ Direct Attach Copper Cables (DAC)

# NEXSAN

## NEXSAN

**Nexsan** is a manufacturer of highly reliable, cost-effective data warehouses tailored to specific requirements and use cases. **Nexsan** products transform traditional storage systems into solutions that deliver business value to customers with additional cloud services, data migration, and unrivaled backup capabilities to protect backups from malware.

### MAIN ACTIVITIES:

- UNITY Unified 3rd generation storages
- E-SERIES High Density and Capacity Storage Systems
- BEAST Elite High Density Storage Systems
- ASSUREON secure storages
- All-Flash NVMe VEXATA High performance arrays

# PRODUCTS AND SERVICES

## SANEBOX

**SaneBox** is a developer of email filtering software. This software helps you to manage email by filtering messages that it considers unimportant into a folder for further processing and allowing you to spend much less time reading them. The solution integrates with IMAP and Exchange Web Services email accounts, works with all email services, and doesn't require any applications to be installed.

The image shows a comparison of an email inbox before and after using SaneBox. On the left, labeled 'Before SaneBox', the inbox has 13,678 messages. The list includes: Boss, Annoying Marketer, Newsletter I never read, Spouse, Important Partner, Political campaign, and Facebook notification. On the right, labeled 'With SaneBox', the inbox has only 5 messages. The list includes: Boss, Spouse, Important Partner, Newsletter I actually read, and Investor. Below the comparison, a blue banner states: 'Any Email Client, Service or Device SaneBox works anywhere you check email'. At the bottom of the banner are icons for various email clients and services: Outlook, iCloud, Gmail, Office 365, AOL, Exchange, Outlook.com, and Apple Mail.

MAIN ACTIVITIES:

SANEBOX EMAIL FILTERING SERVICE

## SIEMON

**Siemon** is a world-renowned designer and manufacturer of network cables, interconnecting devices, passive interconnecting equipment and structured cabling systems for the telecommunications industry. **Siemon's** portfolio includes Category 5e, 6 and 7 copper and fiber optic cabling systems, as well as high-speed networking devices for data centers, healthcare facilities, the automotive industry and other market segments.

### MAIN ACTIVITIES:

- ▶ Copper cabling systems
- ▶ Fiber optic cabling systems
- ▶ Patch panels and adapters
- ▶ Racks and cable management
- ▶ Solutions for automated building infrastructure management: Intelligent Buildings
- ▶ Secure industrial connections
- ▶ High Speed Interconnects (HSI)
- ▶ Tools and testers
- ▶ Connection blocks
- ▶ Fiber optic routing systems

## STARWIND

**StarWind** is a storage software developer certified for use in virtual environments such as VMware vSphere, Microsoft Hyper-V, and Citrix XenServer. **StarWind** products are high-performance, cost-effective storage management solutions trusted by over 100,000 users worldwide.

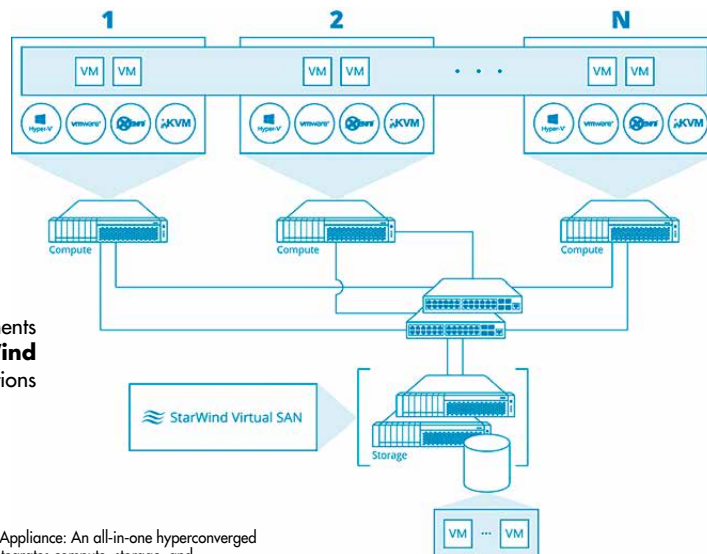

### MAIN ACTIVITIES:

#### SOFTWARE

- ▶ StarWind Virtual SAN: A software-defined storage solution that eliminates the need for physical shared storage by mirroring internal hard disks and flash between hypervisor servers
- ▶ StarWind SAN & NAS: A unified storage solution that combines SAN and NAS capabilities, providing a versatile storage infrastructure
- ▶ StarWind VTL: A virtual tape library solution that helps organizations meet regulatory requirements for data retention and offsite storage
- ▶ StarWind NVMe-oF Initiator for Windows: A solution that enables NVMe over Fabrics (NVMe-oF) connectivity for Windows servers, enhancing performance and reducing latency

#### HARDWARE SOLUTIONS

- ▶ StarWind HyperConverged Appliance: An all-in-one hyperconverged infrastructure solution that integrates compute, storage, and networking in a single appliance
- ▶ StarWind Backup Appliance: A purpose-built backup appliance designed to provide reliable and efficient data protection
- ▶ StarWind VTL Appliance: A hardware-based virtual tape library solution that simplifies backup and archival processes

## TECNOWARE

**Tecnoware** is an Italian company that designs, manufactures and maintains uninterruptible power supplies that provide uninterrupted electric power supply for personal computers, electro-medical and industrial equipment, data centers, network and telecommunication systems. All **Tecnoware** equipment complies with EU standards and the requirements of the modern world. The company maintains a course of continuous investment in innovation and far-sighted strategic planning.

Tecnoware's portfolio includes line-interactive and synchronous line-interactive UPSs, single and three-phase online UPSs, electrical stabilizers, generators, transformers, batteries and other UPS accessories. The company also offers telecommunication cabinets for floor and wall mounting, power distributors and a range of consumer accessories – chargers for laptops and mobile phones, power banks, fans, etc.

### MAIN ACTIVITIES:

- ▶ Line-Interactive UPS
- ▶ Sine wave line-interactive UPS
- ▶ Single-phase online UPS
- ▶ Three-phase online UPS
- ▶ Electricity stabilizers
- ▶ Generators
- ▶ Transformers
- ▶ Batteries
- ▶ UPS accessories
- ▶ Cabinets and accessories
- ▶ Chargers and power banks

## COPPER FASTEN TECHNOLOGIES

**CopperFasten Technologies** specializes in the development and implementation of advanced Internet security products. **CopperFasten** develops software for business security. The company offers gateways and cloud products and protects companies from modern threats that enterprises face. **CopperFasten** is known for launching one of the first virtual anti-spam appliances, SpamTitan, an email security software suite specifically designed to run on VMware virtual machines during the rise of virtual machines.

### MAIN ACTIVITIES:

- ▶ SpamTitan virtual anti-spam appliance
- ▶ PhishTitan phishing protection and prevention tool in Microsoft 365
- ▶ WebTitan DNS filtering solution
- ▶ ArcTitan email archiving solution
- ▶ TitanSecure ransomware, phishing, spear phishing and cyber-attack protection tool
- ▶ SafeTitan real-time security enhancement solution
- ▶ EncryptTitan full-featured encryption system
- ▶ SpamTitan Plus anti-phishing solution

# Unicon

## UNICON

**Unicon** is a developer of infrastructure management software for user systems. Unicon offers solutions for corporate management of workstations and thin clients. The company's products will be an excellent choice for both small companies and organizations with hundreds or thousands of endpoints.

### MAIN ACTIVITIES:

- eLux operating system for Linux-based x86 endpoints
- Scout endpoint management system
- Integrated Scout Cloud Gateway (SCG) solution for connecting endpoint devices operating in remote, distributed environments

# Azerbaijan

The MUK Group of Companies started its activity in Azerbaijan in August 2015. The company's portfolio currently includes contracts with manufacturers such as 3Dconnexion, A10, ACTi, Adtran, Advantech, AEG, Altaro, Ametek, APC, AppDynamics, Arista, AudioCodes, Autodesk, Avigilon, Axis, BENQ, Biotech, BIRR, Bitdefender, BitTitan, Black Box, Bluetti, Brickcom, Centerm, Check Point, Cloudbric (Penta Security), Commscope, Conteg, DDN, Dell Technologies, Delphix, Delta, Dropsuite, Elevêo, Endpoint Protector by CoSoSys, EnGenius, Excel Networking, Extreme Networks, Fortinet, Genie Networks, Grandstream, H3C, HCL, HCS Cabling Systems, Hirsch, Hitachi Vantara, IBM, Idemia, iGuana, Image Access, InFocus, Infortrend, Jabra, Juniper Networks, Keenetic, Kingston, Kstar, Legrand, Lenovo, Leviton, Matrix (Guangdong Matrix New Energy), Microsoft, Minkels, Monbat, Nakivo, NetApp, Netwrix, Nexconec, Nexsan, Nvidia, Oracle, PacketLight, Palo Alto Networks, Peplink, QNAP, Radware, Ranorex, Raritan, RCG Power, RSA Security, Ruckus (CommScope), SaneBox, Siemon, Sopar, StarWind, Symantec, Tecnoware, TitanHQ, Unicon, Veeam, Veritas, Vertiv, VMware, YSoft, Zimbra (Synacor).

# Albania

The MUK group of companies started supplying equipment to Albania in 2019. IT DISTRIBUTION ALBANIA specialists take an active part in the development and implementation of projects using these solutions, providing a range of additional services for their dealers and developing the ValueAdded Distribution model. Currently, agreements have been signed with such manufacturers in the IT industry as Alibaba Cloud, Amazon Web Services, Ametek, AppDynamics, Avigilon, Bitdefender, BitTitan, Bluetti, Centerm, Commscope, Conteg, DIGITUS by ASSMANN, Dropsuite, Endpoint Protector by CoSoSys, EnGenius, Excel Networking, Genie Networks, HCS Cabling Systems, Hirsch, Idemia, iGwana, Netwrix, Nexconec, Nexsan, PacketLight, Peplink, QNAP, Ranorex, RCG Power, SaneBox, Siemon, Tecnoware, TitanHQ, Unicon, Zimbra (Synacor). The list of contacts is constantly expanding, and the company is actively developing a partner network in Albania, selling exclusively through its partners and helping them to implement projects of various scales for customers in various fields of activity.

# PRODUCTS AND SERVICES

## THE RANGE OF IT DISTRIBUTION ALBANIA INCLUDES:

- Amazon Web Services
- Alibaba Cloud services
- Nexsan data storage systems
- Avigilon video surveillance systems
- Bitdefender, Endpoint Protector by CoSoSys and TitanHQ security solutions
- EnGenius, PacketLight and Peplink network equipment
- Commscope, Excel Networking, Nexconec and Siemon infrastructure solutions
- Tecnoware power management solutions
- Genie Networks traffic analysis solutions
- Conteg server cabinets
- Bluetti power stations
- Centerm thin and zero clients
- BitTitan migration services
